

**HOLZ**  
RUBBER COMPANY, INC.

## Application Data Sheet

### Holz Rubber Provides Quick Turnaround For Hydrogen Generation Plant Emergency

**Application:** Hydrogen Generation Plant

**Problem:** The plant needed fully assembled fabric expansion joints for a hydrogen purification unit delivered in two weeks for installation.

**Solution:** With the help of our metal fabricators, we were able to ship all three fully assembled units consisting of belts, pillows, retaining bars, hardware, and frames in the two week time period ready for installation.
